

RNLC Update

We have been busy! New networks have been established, the management structure redefined and the October annual conference is planned and ready to go.

The new Strategy Group replaces the transitional Steering Group dealing with long term issues such as national networking, brokering of key players in the educational field, financial management of the funds, bid agreements and broadcasting the work of the network more widely. Current members (alphabetically) are;

Luke Abbott, RNLC LA Lead,

Peter Bouldstridge, Headteacher, Newbridge School,

Bob Drew, Headteacher, Gearies Infants and School & LA Leadership Advisor,

Peter Shephard, Chief Officer - Learning and School Improvement,

Sue Snowdon, Headteacher, Beal High School and LA Lead 14-19 Diplomas,

Pat Ward, Headteacher, Cleveland Junior School.

This means that the RNLC Co-leaders' team can go ahead with their remit of case conferencing their activity, spreading best practice and developing the breadth of the network within Redbridge and beyond.

We have aligned the networks with the 4 strands of the RNLC (as agreed last year at the annual conference). They are:

1. Leadership
2. Narrowing the Achievement Gap
3. Creativity
4. Student voice

An updated list of networks and their co-leaders is attached
